

## ABOUT US

The Prince's Accounting for Sustainability Project (A4S) was established by HRH The Prince of Wales in 2004. Our aim is to transform finance to make sustainable business, business as usual.

## THE A4S CFO LEADERSHIP NETWORK

The A4S CFO Leadership Network brings together a group of leading CFOs from large organizations who are seeking to embed the management of environmental and social issues into strategy and business processes. The network is formed of regional chapters.

The network aims to create open source guidance covering the key finance function activities, from strategic planning to investor engagement. They can be downloaded from the A4S website:

## THE US CHAPTER

Launched in 2019, the US Chapter of the A4S CFO Leadership Network is comprised of influential members of the US CFO community. The US Chapter has US-based support and partners with a range of business associations, non-profits and leading business schools to accomplish its aims.

Members of the US Chapter, as well as their finance teams, have the opportunity to participate in both US and global activities of the A4S CFO Leadership Network. Please see a list of current members on our website: [www.accountingforsustainability.org/usa](http://www.accountingforsustainability.org/usa)
