

## ABOUT US

Accounting for Sustainability (A4S) was established by HM King Charles III in 2004, when he was The Prince of Wales. Our aim is to transform finance to make sustainable business, business as usual.

## THE A4S CFO LEADERSHIP NETWORK

The A4S CFO Leadership Network brings together Chief Financial Officers (CFOs) from large global organizations to show personal leadership on sustainability. The network is formed of regional chapters.

Members work together to build environmental and social considerations into the strategy and business processes of their organizations. They then offer the leadership and guidance that inspires others to act.

The network creates practical guidance covering the key activities of the finance function, from strategic planning to investor engagement. This guidance is available to download from the A4S website:
